

Sanosil Super 25 Ag

DESCRIPTION

SANOSIL SUPER 25 Ag silver peroxide solution is used to disinfect water systems such as process waters and hot and cold domestic water services.

SANOSIL SUPER 25 Ag is a highly effective oxidising biocide giving excellent biological control at low dose rates.

SANOSIL SUPER 25 Ag is approved under Regulation 31 of the Drinking Water Supply Act.

SPECIFICATION

Physical state	<i>Clear liquid</i>
pH	2-4
Specific gravity	1.22

DOSING AND TESTING

SANOSIL SUPER 25 should be dosed according to the specific application method sheet. Services personnel would be pleased to advise on correct application. A **Sanosil** drop test kit is available (**WTP TK139**) to determine correct levels in the system.

HANDLING AND STORAGE

SANOSIL SUPER 25 Ag should be stored in its original container and exposure to sunlight should be kept to a minimum. **SANOSIL SUPER 25 Ag** should not be stored with organic materials and acids. Please refer to Material Safety Data Sheets for detailed handling and storage information.

SERVICE

Field Representatives will work closely with customer personnel to assure the effective application of the water treatment programme. Qualified personnel can provide regular service calls.

PACKAGING

SANOSIL SUPER 25 Ag treatments are shipped in 10 kg and 30 kg drums.
