

## Sanosil Super 25 Ag

### DESCRIPTION

**SANOSIL SUPER 25 Ag** silver peroxide solution is used to disinfect water systems such as process waters and hot and cold domestic water services.

**SANOSIL SUPER 25 Ag** is a highly effective oxidising biocide giving excellent biological control at low dose rates.

### SPECIFICATION

<b>Physical state</b>	<i>Clear liquid</i>
<b>pH</b>	<i>2-4</i>
<b>Specific gravity</b>	<i>1.22</i>

### DOSING AND TESTING

**SANOSIL SUPER 25** should be dosed according to the specific application method sheet. Services personnel would be pleased to advise on correct application. A **Sanosil** drop test kit is available (**WTP TK139**) to determine correct levels in the system.

### HANDLING AND STORAGE

**SANOSIL SUPER 25 Ag** should be stored in its original container and exposure to sunlight should be kept to a minimum. **SANOSIL SUPER 25 Ag** should not be stored with organic materials and acids. Please refer to Material Safety Data Sheets for detailed handling and storage information.

### SERVICE

Field Representatives will work closely with customer personnel to assure the effective application of the water treatment programme. Qualified personnel can provide regular service calls.

### PACKAGING

**SANOSIL SUPER 25 Ag** treatments are shipped in 10 kg and 30 kg drums.

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The company shall not be held liable for any damage resulting from handling, contact, mis-use or mis-application of the above product. In all instances the user should satisfy themselves that this product is suitable for the anticipated application and should carry out suitable and sufficient risk/COSHH assessments and a method of use statement.

Use biocides safely. Always read the label and product information before use.
